

WHO WE ARE

36 Commuting Solutions is dedicated to delivering innovative transportation options that connect commuters to their workplaces, businesses to their employees, and residents to their communities. Through advocacy for infrastructure and transportation improvements, partnerships and education, we create progressive, flexible transportation solutions.

REGIONAL COMMUTING TRENDS

Over 70 percent of Westminster, Broomfield, Louisville, Superior, and Boulder residents complete their commutes by driving solo, while only a mere 5 percent commute by transit. With an average commute of 22.2 miles roundtrip, that means the average US 36 corridor resident emits over 2,381,416 g/CO₂ in just one year, equal to over two round-trip flights from Denver to London!

Source: United States Census Bureau's American Community Survey (ACS) data from 2011 to 2014.

WHAT WE DO

36 Commuting Solutions is focused on increasing the share of car/vanpoolers, cyclists and transit riders by educating commuters, engaging local employers and advocating for transportation investments. Throughout the year, our engagement efforts reduce CO₂ emissions, help businesses attract and retain employees, and help our keep our region on the cutting edge of transportation innovation.

Our regional impact is strengthened by our partnership with the Denver Regional Council of Governments (DRCOG) and six other Transportation Management Organizations. The partnership of our eight organizations helps the entire Denver metro region meet goals for air quality, reducing single occupancy vehicle trips and the total number of miles traveled.

2016 TOP 10 ACCOMPLISHMENTS

Connect with Us

1 US 36 EXPRESS LANES PROJECT

For 19 years, 36 Commuting Solutions advocated for the multi-modal renovation of the US 36 corridor. In 2016, a number of project elements opened including the Flatiron Flyer, the 18-mile US 36 Bikeway and the Express Lanes.

2 B LINE TO WESTMINSTER

A key focus for our organization is advocating for the full completion of the commuter rail line to Longmont. The first segment of the B Line, from Denver Union Station to Westminster Station, opened in July 2016. The six-mile segment of commuter rail carries over 1,400 passengers each day and travels from Denver to Westminster in under 12 minutes!

3 17TH ANNUAL ADVOCACY TRIP

36 Commuting Solutions joined the US 36 Mayors & Commissioners Coalition on their annual advocacy trip to Washington, DC for the 17th year running. Each trip is an opportunity to meet with federal lawmakers and discuss federal transportation funding opportunities.

4 NORTHWEST AREA MOBILITY STUDY

The Northwest Area Mobility Study provides a guide for building a regional, connected transportation system. Two components of the project were funded in 2016: the I-25 Bus on Shoulder Feasibility Study and environmental planning to further analyze Bus Rapid Transit (BRT) service on State Highways 119 and 7.

5 2017 POLICY AGENDA

We worked closely with the US 36 Mayors & Commissioners Coalition to develop a 2017 legislative policy agenda that outlines transportation policy priorities for the upcoming session.

6 FIRST-AND-FINAL MILE CONNECTIONS

A key focus for our organization is implementing recommendations from the US 36 First and Final Mile Study. In 2016, our work led to complete funding for five Bike-n-Ride shelters and US 36 wayfinding design plans and the establishment of five Zagster bikeshare stations.

7 US 36 CONGESTION MITIGATION PROGRAM

Our US 36 Congestion Mitigation Program is a two-year social marketing campaign aimed at inspiring commute behavior change. In 2016, over 980 commuters received incentives for opting to carpool, vanpool or take transit and over 700 US 36 employees received RTD EcoPasses.

8 FOUR NEW PROGRAMS LAUNCHED

In 2016, 36 Commuting Solutions launched a variety of projects aimed at promoting multi-modal transportation, including Friends of the US 36 Bikeway and the Love to Ride Bike 36 Challenge.

9 53 EVENTS HOSTED

Including Membership Meetings, transportation fairs, Bike to Work Day, and the US 36 Bikeway Community Ride. Our events strive to engage new audiences and educate our coalition on regional transportation investments and improvements.

10 69 NEW CYCLISTS

Through our Love to Ride Bike 36 Challenge, we inspired 69 new cyclists to hop on a bike for at least 10 minutes. Love to Ride helps new cyclists break down the barriers to riding and provides them with the encouragement and confidence they need.
