Press Release

36 Commuting Solutions Wins the Association for Commuter Transportation 2013 Outstanding TMA Award

36 Commuting Solutions has been awarded the Association for Commuter Transportation (ACT) 2013 Outstanding TMA Award.

36 Commuting Solutions has more than 65 business, chambers of commerce, economic development entities and local governments participating in its broad coalition. It serves these participants by advocating for multi-modal improvements and completion of local mass transit expansions; for expanding the availability of corridor-based transportation services, including bike paths, first-mile/last-mile strategies and encouraging carpool and vanpool options; and, for educating employers and employees about the emerging corridor-based commuter options.

ACT is a national, non-profit organization of over 700 members. It is the premier association for professionals and organizations focused on transportation demand management (TDM) – mitigating traffic congestion, increasing mobility and improving air quality. Members include employers, transportation management associations, non-profits, government agencies, universities and students.

The Outstanding TMA Award is presented to the TMA that is deemed to have best used its public/private partnerships to achieve local or regional transportation goals.

For more information on ACT or the Association's awards program, contact Executive Director Caryn Souza at 202-719-5331.
