Multimodal Transportation Professionals Gather at Sustainable Transportation Summit

The Sustainable Transportation Summit features national, regional and local experts

LOUISVILLE, Colo – From self-driving cars to the future of transportation throughout the state of Colorado, Commuting Solutions’ [Sustainable Transportation Summit](#) on May 9th at the Longmont Museum convenes industry thought leaders whose work in sustainable mobility and land-use development is transforming how communities are connected and redefining the travel experience across the state and nation.

“Our vision for the northwest metro region includes a rich blend of multimodal travel options accessible to our community,” said Audrey DeBarros, Executive Director, Commuting Solutions. “The Sustainable Transportation Summit is an opportunity to share the successes of our region and learn from communities throughout the state and beyond.”

The Sustainable Transportation Summit will feature local and regional speakers, breakout sessions and ample networking opportunities for attendees to create lasting connections. The complete agenda for the Sustainable Transportation Summit is as follows:
