

Ride Free Lafayette

Riding Ride Free Lafayette During COVID-19

The safety of our riders and drivers is our top priority for Ride Free Lafayette. Via, our bus operating partner, wants to ensure a safe riding environment for passengers and drivers.

Here is how Via is keeping its drivers and Ride Free Lafayette riders safe through COVID-19:

Cleaning – Buses are deep-cleaned each day and intermittent cleaning of high-touch points are cleaned throughout the day.

Physical Distancing – Distancing requirements are required on all buses. This means that the bus will run at reduced occupancy to ensure that physical distancing is possible.

Face Masks Requirements - Via is requiring that all drivers and riders always wear a non-surgical face mask while riding the bus.

Riders can find up-to-date information on safety protocol, requirements, and cleaning procedures [through Via](#).
