*City of Lafayette*

Dear Coloradans for Coloradans:

*City of Longmont*

The US 36 Mayors & Commissioners Coalition (MCC) is pleased to convey our unanimous support for Let's Go, Colorado, Proposition 110. We support the measure because it will provide a statewide, sustainable revenue source for multi-modal transportation projects, programs and services, as well as local transportation funding.

*City of Louisville*

*City of Westminster*

Of particular importance to us is that CDOT included \$705 million in funding that would go towards regional, multi-modal transportation priorities identified in the Northwest Area Mobility Study (NAMS), if the measure is approved by voters. This project funding commitment is essential to help improve connections between our communities, and to move our workforce, as our communities continue to grow.

*Town of Erie*

Thank you for your leadership on the Let's Go Colorado campaign. Our elected officials stand by ready to assist you in campaigning for this important measure.

*Town of Superior*

Sincerely,

Mayor Bob Muckle

City of Louisville

On the Behalf of the US 36 MCC
